PORTFOLIOLIO 2026

## **Amaury VIEVILLE**

French photographer based in Paris, I currently work as a systems engineer in motorsport.

Passionate about photography, I am specialized in capturing high-speed vehicles and historic objects through my lens.

I travel across France and Europe to document trackside action and uncover hidden historical treasures.

**ON TRACK** action is about freezing split second moments that showcase the speed and performance of race cars.

It's about capturing the intensity of the crew working under pressure and the vibrant ambience of the crowd cheering on their teams.

Each frame tells a story of passion, precision and adrenaline.

Because racing action doesn't only belong to the racetrack,

**OFF TRACK** showcases the spectacle that country roads have to offer.

Far beyond the speed limits, WRC and show cars thunder down the roads, turning everyday routes into stages of pure adrenaline.

This section highlights the details and close-up elements that reveal the personality and design behind each vehicle.

It's in these **DETAILS** that a car's character truly comes to life through the lens.

Every shot invites the viewer to appreciate the craftsmanship up close.
